Summary

I am a results-driven software developer seeking a junior role. I have got a strong track record in designing, developing, and maintaining robust software solutions. My expertise lies in JavaScript with a focus on React, as well as Python programming languages and frameworks. I excel at collaborating effectively within teams to deliver high-quality software products. With my analytical mindset, I can effectively analyse complex problems, propose innovative solutions, and troubleshoot technical issues. Furthermore, I am dedicated to staying up-to-date with emerging technologies and continuously enhancing my skills to drive software excellence.

Key Skills

- Understanding of database concepts and experience working with relational databases (e.g., MySQL, PostgreSQL)
- Strong problem-solving abilities to analyze complex issues, identify root causes and develop effective solutions.
- Commitment to continuous learning and keeping up-to-date with the latest technologies, tools, and trends in development.
- Experience with version control systems like Git to effectively manage codebase and collaborate with team members.
- Understanding of the different stages of the SDLC. gathering, design, development, testing, deployment,& maintenance.
- Ability to work effectively within a team, communicate ideas clearly, and collaborate with other developers, stakeholders.
- Knowledge of web development frameworks and technologies such as HTML, CSS, JavaScript libraries(eg. React)
- Proficiency in programming languages such as Java, Python, JavaScript.

Career & Achievements

May 2023
GraphQL Apollo (with ReactJS and MongoDB) TutorialsPoint,
(GraphQL Server, integration with Apollo Client and ReactJS, Store data in MongoDB Atlas DB

April 2022
Introduction to Front End Development (React) Simplilearn

April 2022
Google UX Design: From Concept to Prototype

Employment History

2021 - 2022
HAMK SMART RESEARCH UNIT
Frontend Intern

- Refinement of UI design, transforming prototypes into HTML, CSS, and Blazor.
- Integration of new features into an existing React.js project, including a map box component for managing maps and points.
- Conducting research and documenting work processes.

2022
GOODGANGCOMPANY.COM
I.T/Design Intern

- Optimizing IT infrastructure and tools
- Creating UI for web pages.
